

Science

Falsely So Called

1 Timothy 6:20-21

Pew Bible Page #1237

- Christians often become fearful and timid when they hear that “science” seems to contradict the Bible, but we need not be _____.
- Those who claim to use science to refute the existence of God are the ones who are on shaky ground. Why?

1. In a universe without God, science has no foundation for _____.

- The word science simply means, “_____.” To “know” something means to have full persuasion of its factual nature, to have full persuasion of its _____.
- *“For by him were all things created...all things were created by him, and for him.” Colossians 1:16*
- Without God, we have no standard for _____ or _____.

2. Science cannot answer the _____ question.

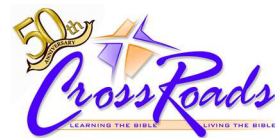

- _____ science: knowledge using the scientific _____.
- _____ science: knowledge concerning the _____. It seeks to answer the “How did we get here?” question, and this is the realm of science that the teaching of evolution falls under.
- There’s one big problem with any discussion about the origin of our universe and life – _____ of us were there!
- Only _____ can answer the question of origin, because He is the only One that was there. By definition, science cannot answer this question.

- “Where wast thou when I laid the foundations of the earth? Declare, if thou hast understanding.” **Job 38:4**

3. Science cannot explain the _____ dilemma.

- Of all the issues that can be raised regarding evolution, the biggest issue is, “Where did the information come from in order to progress from simple life to _____?”
- While mutations can cause changes to a way an organism works, they also result in a _____ of information, never an _____ in information.
- Where does this new information come from? Information can only come from an _____ source.
- Science can’t answer this question, but the _____ can – the answer is _____.

As Paul encouraged Timothy, do not be _____ by science falsely so called, but instead hold fast to the faithful Word of God.
Titus 1:9
