

LESSON ON LEADERSHIP

Problem Solving/Decision Making/Crisis Management

Leadership – PROBLEM SOLVING

- Perhaps the most vital leadership quality is being a good decision maker.

Leadership – PROBLEM SOLVING

- Step 1 - Identify the Problem

- Nehemiah inquired into the condition of the Jerusalem and the Jews there..

Leadership – Problem Solving

- We should get as many **facts** as possible, then weigh them carefully. *“He that answereth a matter before he heareth it, it is folly and shame unto him. (Pro 18:13)”*.

Leadership – Problem Solving

- Step 2 - Analyze the Problem
- This helps you identify the urgency of the problem.

Leadership – Problem solving

- **Step 3 - Pray.**
- **Step 4 – Come Up with Solutions**
 - When you come up with a solution it is important to first identify the causes of the problem.
 - Involve others in the decision making if you can.

Leadership – Problem Solving

- Step 5 - Pick the Best Solution and Do it

Leadership – Problem Solving

- Identify the problem - What exactly is wrong?
- Analyze the Problem – Does this require immediate attention or do I have some time to make a decision?
- Pray
- Come up with Solutions
- Pick the Best Solution and Do It
- Evaluate the Outcome of Your Decision

Leadership – Problem Solving

- There needs to be an evaluation to determine what worked, and what can be improved the next time around.
